REQUEST BY APPALOOSA WATER COMPANY OF CHINO VALLEY, AZ

Arizona Corporation Commission

DOCKETED

FOR A 100 PERCENT RATE INCREASE

SEP 30 2015

DOCKETED BY

I am writing to the Commission members in response to the action listed above, ie: a 100 percent rate increase proposal by my domestic water delivery company.

The company is claiming losses of over six thousand dollars in revenue and the need to upgrade delivery components. The owner of this company has a long track record of trying to use losses and expenses to justify outrageous rate increases. The last attempt he made stated that he had incurred increases in office expenses and increased taxation. This time he is claiming that his company has incurred losses due to the cost of filtration equipment for arsenic remediation. I'm sorry but the arsenic has always been there and he has always been required to remediate it to within state mandated safety levels. Because he has refused to upgrade his equipment in a timely manner he is now demanding that his customers bear the brunt of all this increased expense.

I ask that the commission deny the request for such an outrageous rate increase, one the likes of which I have never heard of.

Thank you for your consideration,

Don Damron

Customer #207 of the Appaloosa Water company
